Investment Strategies

The fund invests primarily in equities on the Approved Wright Investment List (AWIL) whose current operations reflect defined, quantified characteristics which the adviser believes are likely to provide comparatively superior total return over the intermediate term. The AWIL consists of companies that meet or exceed the fundamental standards of investment quality developed by Wright Investors' Service or are leaders in their industry. The portfolio attempts to outperform the S&P Mid-Cap Index.

Total Return is the % return of an initial investment made at the beginning of the period to the ending redeemable value assuming all dividends and distributions are reinvested. Remember, past performance is not predictive of future results.
